

# Slope/ Nodal Planting - the New Territories

Some of the slope planting works at key nodes that showcase both biodiversity and aesthetic design are as follows:

## Use of Native Species with Seasonal Colour Enhances Biodiversity and Amenity Value

### Shatin

Location :  
Yuen Chau Kok, Shatin  
Species:  
*Sterculia lanceolata* Cav. (假蒴婆)  
Completion Year: 2018

Location :  
Yuen Chau Kok, Shatin  
Species:  
*Rhodomyrtus tomentosa* (Aiton) Hassk. (桃金娘)  
Completion Year: 2018

### Tuen Mun

Location :  
Tuen Mun Heung Sze Wui Road, Tuen Mun  
Species:  
*Pennisetum alopecuroides* (L.) Spreng. (狼尾草)  
Completion Year: 2020

### Penny's Bay

Location :  
Fantasy Road, Penny's Bay  
Species:  
*Reevesia thyrsoidea* (梭羅樹)  
Completion Year: 2020

# Slope/ Nodal Planting - the New Territories

Some of the slope planting works at key nodes that showcase both biodiversity and aesthetic design are as follows:

## Flowering Species Enhance Visual Interest and Attract Butterflies

### Shatin

Location :  
Yuen Chau Kok, Shatin  
Species:  
*Duranta erecta* L. (假連翹)  
Completion Year: 2018

### Tuen Mun

Location :  
Ka Wo Li Hill Road, Tuen Mun  
Species:  
*Asclepias curassavica* (馬利筋)  
Completion Year: 2020

## Thematic Plantings Displaying Attractive Blossom

### Penny's Bay

Location :  
Fantasy Road, Penny's Bay  
Species:  
*Plumeria rubra* (紅雞蛋花)  
Completion Year: 2020

Location :  
Fantasy Road, Penny's Bay  
Species:  
*Tabebuia chrysostricha* (黃花風鈴木)  
Completion Year: 2020

Location :  
Wing Yan Road, Penny's Bay  
Species:  
*Prunus lannesiana* (重瓣櫻花)  
Completion Year: 2020
