

Notes:

1. All dimensions are in millimetres.
2. The geogrid to be used shall be a self adhesive Stress Adsorbing Membrane Interlayer with a minimum tensile strength across width of 200 KN/m and along length 100 KN/m, and the modulus of elasticity of the material is not less than 69,000 MPa.

B	Geogrid & note 2 added		Nov 96
A	Description of sleeve revised		Sept 96
	Former Drg. No. H1005A with general revision		June 94
