

CONTROLLING OFFICER'S REPLY

THB(T)034

(Question Serial No. 0904)

Head: (60) Highways Department

Subhead (No. & title): (-) Not Specified

Programme: (1) Capital Projects

Controlling Officer: Director of Highways (Daniel K W CHUNG)

Director of Bureau: Secretary for Transport and Housing

Question:

- (A) Please list out the items completed and under construction for each district under the Universal Accessibility (UA) Programme with date of commencement, date of completion/anticipated date of completion, the barrier-free access (BFA) facilities involved (number of lifts, stair lifts, etc.), expenses for each item, etc.
- (B) Has any monitoring action been taken in respect of the BFA facilities under the UA Programme on the state of maintenance and use? There was report that some lifts completed have been in a state of malfunctioning for a long time, causing normal use by the public to be impossible. What measures will the Government adopt for improving the maintenance and repair of lifts?

Asked by: Hon LAM Kin-fung, Jeffrey (Member Question No. (LegCo use): 53)

Reply:

(A)

The Government has been installing BFA facilities at public walkways (i.e. public footbridges, elevated walkways and subways maintained by the Highways Department (HyD)), where technically feasible, (now known as the "Original Programme" under the UA Programme) in response to the recommendation of the Equal Opportunities Commission. Apart from continuing to implement the projects under the "Original Programme", the Government invited the 18 District Councils (DCs) in the first half of 2013 to prioritise the new items in their districts proposed by the public through the "Expanded Programme" of the UA Programme which was introduced in August 2012. Under the "Expanded Programme", each DC selected three public walkways for implementation. Currently, we are pressing ahead with the implementation of a total of 202 items under the UA Programme. As at 28 February 2018, 76 items (one item in 2013, nine items in 2014, 15 items in 2015, 20 items in 2016, 26 items in 2017 and five items in early 2018) were completed, 114 items (two items commenced construction in 2013, 12 items in 2014, 73 items in 2015, seven items in 2016 and 20 items in 2017) were under

construction. The remaining 12 items will commence construction as soon as possible upon completion of detailed design and other related work.

From December 2016 to September 2017, the Government again invited the 18 DCs each to further nominate not more than three walkways for implementation under the next phase of the UA Programme (referred to as the “Next Phase”). The walkways eligible for consideration by the DCs are no longer confined to public walkways maintained by the HyD, provided that certain criteria are met. The HyD has engaged consultants to carry out the investigation and design for the 48 items selected under the “Next Phase”. We anticipate that the construction works for these items will commence progressively starting from 2019.

The expenditures on the UA Programme in 2011-12, 2012-13, 2013-14, 2014-15, 2015-16, 2016-17 and 2017-18 were \$6.6 million, \$28.5 million, \$232.2 million, \$554.3 million, \$779 million, \$801.9 million and \$862.2 million (estimate) respectively, covering the costs for conducting technical feasibility studies /investigation works, design, construction works and supervision of construction. The estimated expenditure in 2018-19 is \$736.6 million.

The list of projects under the UA Programme and their present status is as follows:

Notes:

- # Walkway involving more than one structure (item)
- * Walkway that is not maintained by the HyD

(B)

To ensure serviceability and public safety, the HyD conducts regular inspections for all highway structures, including the BFA facilities of the highway structures. In general, the contractor responsible for the construction of the BFA facilities will provide maintenance to the BFA facilities in the 12-month defects liability period upon completion. After that, the HyD will engage the Electrical and Mechanical Services Trading Fund (EMSTF) to undertake the maintenance of the electrical and mechanical installations of these facilities. The EMSTF will in turn arrange its contractors to carry out routine inspection and maintenance, emergency service and examination of the BFA in accordance with relevant regulations. The HyD/EMSTF will closely monitor the service condition of the BFA as well as the progress and quality of the maintenance works.
