

2022 City Dress-Up on Highways Structures

The design reflects with the blossom of "Hong Kong City Flower *Bauhinia x blakeana*" and "the common local flowering trees" like "*Bombax ceiba*" and "*Delonix regia*". All kinds of flowers are dancing in the wind, weaving dreamy and pleasing stories. The design would like to let pedestrians feel the unique atmosphere created by the place when they pass the footbridges.

Footbridge at Tim Mei Avenue, Admiralty near CGO

Footbridge at Wan Chai across O'Brien Road
