

2022 City Dress-Up on Highways Structures

For the three sets of flyovers connecting Museum Road in the Cultural District, the design is inspired by the strong artistic and cultural atmosphere of the West Kowloon Cultural District. It focuses on "Contemporary art" and "Geometric graphic" to construct three-dimensional spaces and guide visitors to the West Kowloon Cultural District. We uses "color" for leading people into the world of art and culture, passing through the "Art Gateway" one after another.

Art Gateway

Geometric Graphic
