

## City Transformation Tsim Sha Tsui

Highlighting the history of the Kowloon Peninsula and appreciating the development of our city, the design has made use of a historical map to illustrate the characteristics and transformation of Kowloon Peninsula.

Images are drawn in the style of blue and white ceramics, in which important buildings, such as the Star Ferry Pier, Former Kowloon Railway Station, Peninsula Hotel, Hong Kong Observatory and Signal Hill and iconic features, such as the Star Ferry, steam locomotives of the Kowloon-Canton Railway, marine ships, steam boats and junks, are presented.
