Highways Department Technical Circular No. 2/2015

Highways Standard Drawings

This Circular updates and supersedes HyD TC No. 2/2006 which is hereby cancelled.

2. Standard details for highway works are presented in the document 'Highways Department Standard Drawings' which is prepared, updated and issued regularly by the Research and Development Division. A separate set of drawings prepared by the Bridges and Structures Division provides the standard details for highway structures. Moreover, a set of drawings prepared by the Lighting Division provides the standard details for public lighting installation.

3. The standard details must be adopted for all highway works/structures/lighting which are to be maintained by the Department as far as practicable. However, minor amendments to suit particular site conditions not affecting the function and maintenance of the works/structures/lighting may be made at the discretion of the Engineer[#].

4. Major amendments to the standard details or new details proposed should be adopted only after consultation with the Research and Development Division, the Bridges and Structures Division and/or the Lighting Division as appropriate and with the agreement of the respective Region/Division responsible for the maintenance of the completed works.

(Original Signed)
(K K LAU)
Director of Highways

[#]The Engineer as appointed by the Employer under the terms of the Contract.
