

PUBLIC LIGHTING DESIGN MANUAL

(Third Edition)

Supplementary Notes No. 1

These supplementary notes supplement Section 2.3.3.3 of the Public Lighting Design Manual that the clearance of 10m and 15m of planting trees away from the road lighting columns and high mast lighting columns respectively can be relaxed if the project proponents can submit details, including but not limited to tree species, anticipated crown spread and density of foliage, and confirm that the proposed tree planting will not affect the illumination of the nearby public lighting.
